- (2) Estimated in accordance with Rule 457(h) solely for the purpose of calculating the registration fee. The offering price per share and the aggregate offering price are based upon (a) \$22.88, which is the weighted-average exercise price for outstanding options granted under the 2015 EIP and (b) \$23.815, which is based on the average of the high and low prices of the Registrant's Common Stock as reported on the Nasdaq Global Market on June 14, 2018. The chart below details the calculations of the registration fee.

- (3) Represents (a) 5,000,000 shares of Common Stock added to the shares authorized for issuance under the 2015 EIP pursuant to an amendment to such plan approved by the registrant's stockholders via written consent and (b) 500,000 shares of Common Stock that were automatically added to the shares authorized for issuance under the 2017 ESPP on January 1, 2018, pursuant to an "evergreen" provision contained in the Plan. Pursuant to such provision, on January 1 of each year from 2018 until 2027, the number of shares authorized for issuance under the Plan is automatically increased by a number equal to the amount equal to the lesser of (i) 1% of the total number of shares of Common Stock outstanding on December 31st of the preceding calendar year, and (ii) 500,000 shares of Common Stock. Notwithstanding the foregoing, the Registrant's board may act prior to the first day of any calendar year to provide that there will be no such increase in the share reserve for such calendar year or that the increase in the share reserve for such calendar year will be a lesser number of shares of Common Stock than would otherwise occur pursuant to the preceding sentence.
